

Leading from the Middle

- Excellent structure, well worth it. Very informative host
- Great day – a really wonderful change to reflect and think about strategies and support myself as a leader professionally and personally
- Really useful thought provoking, plenty of momentum generated to progress further with coaching
- Really useful! Interesting. New ideals weaved with practical ways of making it work. Fell better prepared to coach colleagues now
- The trainer was absolutely brilliant. I have felt stretched, challenged and engaged for the entire time. Motivated to start trying skills highlighted but would love Jessica to come into school for staff CPD
- Super! Have learnt a lot about myself how to put it to future practice and my own life outside school
- Really beneficial and enjoyable. Learnt plenty and will start embedding this into my everyday practise
- Interesting day, has made me think about how I will approach my SLE role with a “Coaching” hat on
- Today has been brilliant and highly effective. I really enjoyed working with such a small group and the trainer was great in her deliverance. I feel as though I have learnt lots to feedback to school – thank you
