

## Testimonials for Coaching the NQT – Going beyond mentoring

- I have learnt so much especially how to use coaching to help my mentees to take more responsibility for their own learning and resisting giving them the answer. This course has changed the way I think. Wow!
- This has been such a revealing course, I thought I was coaching but I am definitely mentoring. I particularly liked learning about questioning techniques and how to use questions to challenge my mentees
- This course has been so useful. Two sessions of action and opportunities to share and interact with the trainer and with other delegates. The materials sent to school will be used again and again. Very cost effective
- I learnt the difference between mentoring and coaching which will be invaluable in my role as manager of student and NQT mentors.
- This course has refined and deepened my understanding of what coaching is and how it can be so beneficial for my role with NQTs
- The resources are great, the facilitator was excellent. There were a great many opportunities to share ideas and do some face to face, albeit it virtual coaching
- Incredibly useful opportunity for me, thank you. I feel more confident about my role in encouraging the NQTs in the trust to be more adventurous and take more risks to help them towards becoming outstanding teachers
- This was a very enlightening and intimate session. I was unsure how this would work but was impressed with the fact that it was so similar to working in a room with others and we all came away feeling that we had learnt a lot
- An excellent learning experience that has given me a great deal of food for thought
- Fantastic CPD. Really relevant for my needs. The content linked so well the aims for staff in the school development plan
