

## **Testimonials for Formative Assessment – Creating the pedagogy of challenge, progression and deeper learning**

### **A ready-made package of CPD**

- This course has helped enormously to set the scene for what we want to do with curriculum planning and ensuring assessment is integral. Excellent resources
- A useful resource that will shape our CPD for the rest of this year. Assessment is firmly on our improvement agenda and everything here is relevant
- We have found this resource very easy to navigate and it has provided us with a wealth of materials and resources to support all our teaching staff to focus on their approaches to formative assessment
- An extremely useful programme of CPD that is being well used in a variety of ways. The practical way it has been put together gives us a lot of scope for how we can use it
- Thank you for the opportunity to use this excellent training programme. It is easy to use and to find our way around and it has provided us with a great deal of food for thought and has enhanced our practice
- A very useful course full of good ideas and practical tools
- We are using the materials over time. The course and the way it is structured has allowed us to plan a series of sessions over the next two terms
- This programme has proved invaluable across our group of schools. Creating a consistent approach to assessment has been one of our issues and this has helped to create clarity and consistency
- This course has helped us to think differently about assessment and we have used some of the materials to challenge current practice and change paradigms
